1 Overview

This report profiles every column of **asimplified.csv**, the Day-7 international departures schedule for Delhi (DEL) on 21 June 2026. The dataset contains **165 flights** (rows) across **16 fields** (columns).

Field	Type	Distinct values	Missing
S.no	numeric	165	0
Airline code	categorical	58	0
Flight Designator	categorical	165	0
SOBT	categorical	134	0
checkinopen	categorical	134	0
checkinclose	categorical	134	0
Routing	categorical	70	0
Traffic Type	categorical	1	0
Public Terminal	categorical	1	0
GHA	categorical	5	0
Seats	numeric	76	1
dest_iata	categorical	66	0
dest_city	categorical	64	0
dest_country	categorical	46	0
airline_name	categorical	58	0
airline_country	categorical	40	0

2 Numeric Summary: Seats

Seats is the only numeric measure in the schedule. 164 of 165 flights report a seat count (one value is missing).

Statistic	Value
Flights with data	164
Missing	1
Mean	241.5
Median	232
Std. deviation	77.2
Minimum	118
25th percentile	182
75th percentile	292.75
Maximum	509
Total seats (all flights)	39,610

3 Categorical Frequencies

For each categorical field the most common values are listed (top 15 where a field has more than 15 distinct values). Share is the percentage of all 165 flights.

3.1 Airline code (58 distinct)

Airline code	Count	Share
AI	50	30.3%
